

Basic load alternation control GLW 4 B111200

Product Information Sheet

Technical data	B111200
Pressure sensor	0-16 bar
Voltage	230 V
Frequency	50 Hz
For power input	from 3.0 kW
Number of compressors	4 max
Dimensions [mm]:	280x220x125
Weight:	2,3 kg

Product Description

Fact Sheet

- Harmonisation of operating hours - saves on maintenance costs
- Connection to add on an electric ball valve
- Option of integrating a remote switch for greater flexibility in system control

Basic load alternation control GLW 4 B111200

Product Information Sheet

For a maximum of 4 compressors
(screw and piston compressors over
3 kW can be combined with existing
contactors) for distribution of basic
and maximum air requirements

Text display with 3 control
buttons and real-time clock

Potential-free
fault contact

Time switch function
with up to 6
programmes

Pressure
monitoring with
delayed activation
of the compressor
