

# Basic load alternation control GLW-SGSD 17 B111201

## Product Information Sheet

| Technical data        | B111201  |
|-----------------------|----------|
| Pressure sensor       | 0-16 bar |
| Voltage               | 230 V    |
| Frequency             | 50 Hz    |
| For power input       | 3 / 4 kW |
| Number of compressors | 2        |

## Product Description

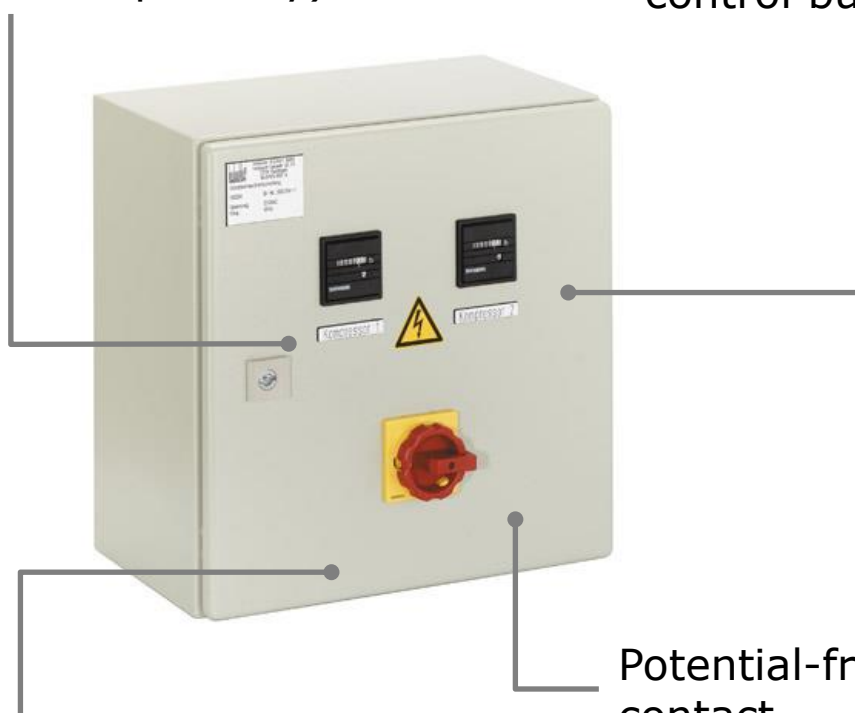

- Fact Sheet
- Electronically controlled utilisation of power units to extend the service life of multiple compressors
  - Connection for energy-saving system and electric ball valve provides expansion option within a machine
  - Option of integrating a remote switch for greater flexibility in system control

Product Information Sheet

With operating hour counter,  
but does not include motor  
protection or start relief  
(please order AE4 separately)

Display with 3  
control buttons

For 2 piston  
compressors 3 / 4 kW  
(without contactors)

Potential-free fault  
contact
