

# Tool Set DL-WZ-Set 3-teilig DGKD100041

Product information sheet

## Product Description

- **Use**  
The tire pressure gauge is ideal for inflating tyres of passenger cars, motorcycles and transporters. With the supplied adaptors, the pressure gauge also can be used for bicycle tyres and balls and dinghy.  
The blow gun is suitable for general blowing out work.
- **Low air consumption**  
Due to the low air consumption, the tools can also be operated with smaller compressors
- **Content**  
Tyre pressure gauge with adapter kit for bicycle tyres, balls etc.  
Blow gun  
Spiral hose for flexible working

## Further Information

Scope of delivery	1 piece in carton with manual
-------------------	-------------------------------

# Tool Set DL-WZ-Set 3-teilig D100041

## Product information sheet

### Tyre pressure gauge

Working pressure	0-10 bar
Max. permissible pressure	10 bar
Hose length	38 cm
Weight	0,36 kg
Overall dimensions (WxDxH)	170x78x200mm

### Blow gun

Max. permissible pressure	12 bar
Weight	0,15 kg
Overall dimensions (WxDxH)	130x17x145mm

### Spiral hose

length (stretched)	5 m
Max. permissible pressure	8 bar
Inner diameter	6 mm
